

Harbour Rock Wine List

We are proud to present you with our comprehensive wine list representative of wines from all over South Africa. While we strive to present you with an up-to-date and accurate wine list we feel that too much information will detract from the value of the list. Therefore the appellation: *(A protected name under which a wine may be sold, indicating that the grapes used are of a specific kind from a specific district)* is not listed under each wine, as many of the wine farms source grapes from other areas. The name you see following the wine farm ie: *(Hemel & Aarde Valley)* is in fact where the farm itself is situated and does not necessarily mean that the grapes have all been sourced from this specific location.

Sparkling wines: Should be fresh and light. Aromas should be clean, and not specifically reminiscent of any particular grape variety.

Rosé: Are not matured in oak, so they should have a refreshing texture. You will also find intense fruit and medium alcohol. The wines come from red-skinned grapes that are left on their skins for a very short time to lend colour.

Sauvignon Blanc: Hi acidity, medium alcohol, a mineral character and citrus flavours.

Chenin Blanc: Lean and light wines, with notes of apple and citrus, and when in contact with wood - more honeyed and nutty flavours.

Pinot Blanc: Fruity aromas, often of apple, citrus fruit, and floral characteristics, also stone fruits and a heady minerality.

Chardonnay: Notes of minerals, green apple and citrus. When treated with oak it shows hints of smoke, warm bread, vanilla and toast.

Viognier: Highly perfumed and floral but retains a clean acidity. Fabulous summer wine.

Colombard: An intensely fruity wine with a good acid backbone – easy quaffer.

Pinot Noir: Silky with light colour, which is both highly and delicately perfumed displaying a wide range of characters, from black cherry to leather and spice, as well as vanilla and smoke.

Pinotage: Crossed between Pinot Noir and Cinsaut gives wines with soft tannins, smooth cherries, spice and 'meaty' notes.

Merlot: Well-coloured wines full of soft fruit, may be very rich.

Cabernet Sauvignon: Tiny black berries produces wines with high colour, tannin, acidity, alcohol and fruit. Benefits from oak ageing.

Shiraz: World-class wines with a rich and opulent character that is typically warming and spicy.

Grenache: Lots of flavour and good ageing potential. Wild black fruits, sweet cherry and smoky spice.

Petit Verdot: When young its aromas have been likened to banana and pencil shavings. Strong tones of violet and leather develop as it matures.

Méthode Cap Classique

MÔRESON MISS MOLLY (*Franschhoek*) **180 / By the glass 35**

100% chardonnay • citrus nose • fine mousse • biscuity • yeasty palate • refreshing finish

Our House Wine

Hand crafted and bottled with love and skill for the Harbour Rock

LADY JESSY WHITE BLEND (*Bot River*) **96 / By the glass 25**

Despite her cultured roots and exquisite lineage, the Labrador lady Jesse is not beyond leisurely dips and the odd spot of fishing, which is probably why this wine pairs so very well with seafood. Blessed at birth with a nose for all notes and a sense of humour that's comfortably dry, the lady has produced a finessed white that's crisp, fresh and adequately elegant. Sauvignon Blanc, Semillon.

BARON NOVAK BORDEAUX BLEND (*Bot River*) **125 / By the glass 35**

Spend five minutes in the company of the Baron Novak and you'll instantly understand the character of this delightful Bordeaux blend. Blessed with a sense of smell as keen as his wit and a mischievous streak you'd expect from a schnauzer, the Baron has produced a robust red that's classically flavoured, medium bodied and guaranteed to only improve with age.

White Wine

LEOPARD'S LEAP LOOKOUT SEMI SWEET (*Franschhoek*) **100 / By the glass 25**
